**EXHIBIT A
STATEMENT OF WORK
PREDPOL SAAS SERVICES DESCRIPTION**

PredPol shall provide client with the following services per the terms of this Agreement.

1. SERVICE OVERVIEW

PredPol provides predictions for where and when crime is most likely to occur. This includes property crime, gun violence, gang activity, and traffic incidents. Predictions may be generated for different time windows and delivered on paper or to any internet-connected device. The predictions are shown on maps as 500 foot by 500 foot boxes (approximately the size of a large intersection; referred to herein as "Prediction Boxes") that officers may patrol during their shift when not responding to calls for service or performing other duties.

Three types of crime data – type of crime, place of crime, and time of crime – are delivered through a secure Data Pipe from Client's RMS to the PredPol Service. Predictions are then generated and made available anytime the Client logs in to the system.

2. SERVICES DESCRIPTION

B. SaaS and Technical Support

PredPol will make the following accessible to Client via the internet per the terms of the Service Level Agreement set out below, for the duration that this Agreement and this Statement of Work remain in effect. 3. SERVICE LEVEL AGREEMENT

- A. Service Availability. The PredPol SaaS service shall have an uptime of 98%, calculated as the percentage time said service is accessible from the Internet in any whole calendar month after SaaS service initiation ("Service Month"). Downtime resulting from scheduled maintenance and force majeure events shall not be included in the uptime calculation. Additionally, in the situation where the Client's technical architecture or the RMS data formats within the record management system are changed by the Client without 60-day advance notice, any resulting downtime will not be included in the uptime calculation.
- B. Service Response Time. PredPol shall take reasonable measures to ensure that the SaaS service response times do not materially fall behind industry standards.

- C. **Service Credits.** Client's sole remedy for any failure for PredPol to meet the foregoing shall be a credit of 1/12 a percent for each percent below 98% the calculated uptime is in a Service Month, on Client's next annual invoice. Said credits shall have no cash value.

4. FEES

- A. **SaaS and Technical Support Fees.** As consideration for the services provided per Section 2.B of this Exhibit A, Client shall pay to PredPol an annual subscription fee of \$16,000 [Net of Early Adopter Rate], for the Service term and every year that this contract remains in effect thereafter. The subscription fee due for the Service term shall be invoiced upon the full execution of this Agreement. The subscription fee due for subsequent one (1) year periods that this contract remains in effect shall be invoiced thirty (30) days prior to the conclusion of the Service term, and the annual anniversaries thereof.
- B. **Software updates to the SaaS provided herein** shall be provided at no additional charge during the Service term. The fee for the continued provision of said software updates shall be mutually agreed to by the parties at the conclusion of the Service term.
